
Classic Wax

Classic Wax can be used on fine furniture, antiques, unfinished furniture and fine wood crafts. Classic Wax polishes, rejuvenates, refinishes and finishes with a beautiful wax luster.

Classic is used on new & old. Even woods, bronzes and metals. Classic is a product which does what it says. Unlike so many finishes, Classic enhances the beauty and patina a finish acquires over time in a most esthetically pleasing way. Classic does not evaporate away. Classic can be used over paints, milk paints, stripped pines, country furniture, primitives, unfinished furniture, reproductions, imported furniture, European furniture, antiques, collectibles, oils finishes, stains, shellacs, stripped & unstripped finishes, naked woods, mission furniture, shaker and painted country, wood floors, wood carving and wood turnings.

Classic often saves the effort and cost of stripping and refinishing furniture.

Classic enhances the patina, (damage and abuse acquired over time), in such a way that your pieces' esthetic intrinsic value is noticed with a wonderful presence all its' own.

Available in 450 ml (1 lb tin) and trade users 7 lb tin.
